- recorder

### Product Description

#### Product Description

The Kaito portable shortwave radios such as KA1101, KA1102 & KA1103 are well known for their outstanding sensitivity & selectivity by radio listeners worldwide, this newly released KA1121 is no exception and it has much much more to offer than a traditional radio. It is the world's first AM/LW/FM/Shortwave/NOAA Weather Band/SSB Receiver with a detachable 256MB MP3 player/digital recorder, both the radio and the MP3 player can work independently flawlessly. There are three different recording modes (sampling rate) to choose from, 32 Kbps/80Kbps/128Kpbs, the higher the sampling rate, the better the sound quality. You can easily set up the timer and record up to 32 hours of radio program and transfer it to your PC via a USB cable so you will never miss your favorite talk show, music program or sports event again. You can operate the radio and the MP3 player using the AC/DC adaptor or using the included rechargeable batteries that can be charged through the built-in battery chargers. For your convenience, 100 stations and 400 frequencies can be stored in the memories for easy tuning, you can also program the memories via your PC after you install the software. Frequency coverage: 1. AM: 140 Khz -520Khz ( Long Wave), 520 KHz- 1710Khz ( MW) 2. FM Stereo: 70Mhz- 88.0Mhz ( Low FM), 88.00Mhz - 108 MHz( Upper FM) 3. SW: 3000 KHz - 29,999 KHz 4. 7 NOAA Weather Band Accessories: 1. AC/DC adaptor 2. AA NiMH rechargeable batteries 3. DF6 NiMIH rechargeable battery 4. USB cable 5. Software CD 6. Soft antenna 7. Earphones 8. Carrying pouch 9. User manual 10. Quick reference guide 11. Warranty registration card
