Windows Mobile 6 Software

With great productivity tools for mobile professionals, Windows Mobile 6 provides several features allowing you to stay connected to your business and personal data on the go. Windows Mobile 6 provides supports many forms of email, Mobile versions of Microsoft Applications including editing capabilities, and the ability to easily transfer your digital multimedia from your Windows-based PC to your device. It also supports HTML based emails, and includes popular services such as Windows Live Search.

Wireless High-Speed Data Capable

Where coverage is available, experience broadband-like download speeds using EV-DO technology. The average download speeds range from 400 to 700 Kbps

with peak rates up to 2 Mbps. EV-DO Rev. A upgradeable for even faster speeds.

Integrated QWERTY Keyboard

The sliding keyboard provides a familiar interface and allows for quick and efficient input of information. The slide-to-hide form factor eliminates bulkiness for a sleek and stylish design.

2.0 Megapixel Camera and Camcorder

Shoot digital pictures with the embedded 2.0 megapixel camera with built-in flash and 8x digital zoom lens; use the built-in camcorder to record 30 second video clips and play them on the LCD screen.

Bluetooth Wireless Technology Enabled

Built-in radio technology for short-range wireless communication. When used with your Sprint PCS Smart Device and select accessories (headset, car kit, etc), Bluetooth allows fast, secure transmission without cables or wires, even though the two devices are not in line-of-sight. Bluetooth wireless accessories sold separately.

Sprint Music StoreSM Enabled

Download stereo-quality, digital tracks instantly to your phone. Choose from hundreds of thousands of full-length songs from virtually every genre. Select songs directly from your wireless phone and listen to them wherever you go, even download them to your PC.

Large, Full-Color Touchscreen, Thumb Wheel and Integrated Antenna

Featuring a vivid 2.8" 64k color touch screen, a thumbwheel for one handed navigation, and an integrated antenna resulting in a sleek design.

External MicroSD Card Slot, Plus 512MB Memory Card

Included with the device is a 512MB MicroSD memory card. Add memory and selected peripherals or load additional games, applications, and music or video clips.

Java Support

Enables users to view Java based websites.

Built-In Wi-Fi Capability

High-speed data connection between the device and nearby Wi-Fi access points for the ultimate in mobile connectivity.

Attachment Viewing

Microsoft® Office PowerPoint® Mobile application enables viewing of presentations while on-the-go, while Microsoft® Office Excel® Mobile™ now offers chart support that improves the email attachment viewing experience.

Two-Way SMS Messaging

Instantly send and receive SMS Text Messages across the room or across the country. It's the coolest way to talk, without the talk.

Microsoft ActiveSync®

Updated ActiveSync® technology (version 4.0) offers one of the best PC to mobile device sync experiences, making it easier to configure with faster data transfer and sync accuracy.

Phone As Modem Compatibility

Use the included USB cable or Bluetooth with a Phone As Modem Service Plan to connect your PC to the Internet.

Downloadable Applications

Includes an on-device link to the Sprint PCS Software Store provided by Handango™. Customers can find, download and buy software, games, ringtones, graphics and other Windows Mobile Pocket PC applications simply and securely. Additional software titles are available from your desktop PC at <http://softwarestore.sprint.com>.

Built-in Speakerphone

Hands-free operation of your phone is made easy with the built-in speakerphone, allowing you to take a conference call virtually anywhere!

Stereo Headset

Stereo Headset jack for handsfree operation and music enjoyment.
