ETON FR250 AM/FM/SW Radio, Flashlight, Cell Phone Charger w/Crank - Silver

Product Specifications:

Self Powered Radio - Wind Up Mechanism/Also Battery Power or AC/9 Band Tuning – receives AM, FM and 7 Shortwave bands

For the most part, you'll be operating this radio using Batteries or Optional AC adapter. Let's say, however, you're out camping or find yourself in some other desperate situation where power is unavailable. Well, this radio will work! You can crank it to operate and, while cranking, you can charge its internal batteries - but it can also work without batteries. Survival aside, you've got AM/FM and 7 Shortwave radio bands so you can listen to most of the world. There is also a built-in triple White LED light source that is surprisingly bright to shed light after the sun sets. Listen from the built-in speaker or with an earphone from the built-in miniplug. Overall, The Eton FR250 is a radio everyone should have for both everyday use and for emergencies. In a sense, this is a radio for all seasons and all times. In an emergency, this may be the most valuable thing to have.

- Can be powered from four different sources:
 - From the built-in rechargeable Ni-MH rechargeable Battery that takes charge from the dynamo crank and from an AC adaptor (AC adaptor not included)
 - From 3 AA Batteries
 - From the AC Adaptor (AC adaptor not included)
 - From the dynamo crank alone, even with no battery pack installed

- Earphone Jack – 3.5mm Stereo Earphone Socket
- Cell-Phone Charger Output Jack 3.5mm
[\(Click here for Cell phone Adapter List\)](#)
- Incorporates a fine-tuning control knob superimposed on the main tuning control knob
- Built-in White LED Light Source
- Built-in 2.5 Inch Speaker delivers outstanding sound
- All antennas built-in: telescopic antenna for FM and SW; Internal ferrite bar antenna for AM
- Dimensions: 6.7W x 6-1/4H x 2-1/2Dinches
- Weight: 1.3lbs
